Changes to the building application

1) The Meal Count Center box is no longer available. Select the Prep Ctr (preparation center) box that corresponds to the building that contains the kitchen. If the kitchen is in the middle of your building, select one building as the preparation center.

Since the meal count center option is no longer available, a claim form will be generated for each site and all meal counts must be reported by site. There will no longer be a consolidated claim. This will not impact all Local Education Agencies, only those that reported meals for two or more buildings on one claim, must now report meals by site.
